#### Independent Auditor's Report

To the Board of Education
Warren Woods Public Schools

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Warren Woods Public Schools (the "School District") as of and for the year ended June 30, 2012, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Warren Woods Public Schools' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Warren Woods Public Schools as of June 30, 2012 and the respective changes in financial position and cash flows, where applicable, for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and the budgetary comparison schedules, as identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# To the Board of Education Warren Woods Public Schools

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Warren Woods Public Schools' basic financial statements. The accompanying other supplemental information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

In accordance with Government Auditing Standards, we have also issued a report under separate cover dated August 1, 2012 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide opinions on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Plante & Moran, PLLC

August 1, 2012

## **Management's Discussion and Analysis**

This section of Warren Woods Public Schools' annual financial report presents our discussion and analysis of the School District's financial performance during the year ended June 30, 2012. Please read it in conjunction with the School District's financial statements, which immediately follow this section.

#### **Using this Annual Report**

This annual report consists of a series of financial statements and notes to those financial statements. These statements are organized so the reader can understand Warren Woods Public Schools' financial operations. The government-wide financial statements provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. The fund financial statements look at the School District's operations in more detail than the government-wide financial statements by providing information about the School District's most significant funds - the General Fund, which includes the SMTEC Vocational Education Consortium, and the Special Education Center Program Fund - with all other funds presented in one column as nonmajor funds. The remaining statement, the statement of fiduciary assets and liabilities, presents financial information about activities for which the School District acts solely as an agent for the benefit of students and parents.

#### **Management's Discussion and Analysis (Continued)**

#### Reporting the School District as a Whole - Government-wide Financial Statements

One of the most important questions asked about the School District is, "As a whole, what is the School District's financial condition as a result of the year's activities?" The statement of net assets and the statement of activities, which appear first in the School District's financial statements, report information on the School District as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most privatesector companies. All of the current year's revenue and expenses are taken into account regardless of when cash is received or paid. These two statements report the School District's net assets - the difference between assets and liabilities, as reported in the statement of net assets - as one way to measure the School District's financial health or financial position. Over time, increases or decreases in the School District's net assets - as reported in the statement of activities - are indicators of whether its financial health is improving or deteriorating. The relationship between revenue and expenses is the School District's operating results. However, the School District's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School District.

The statement of net assets and the statement of activities report the governmental activities for the School District, which encompass all of the School District's services, including instruction, support services, community services, athletics, food services, enrichment, student stores, debt retirement, and internal services. Property taxes, unrestricted state aid (foundation allowance revenue), and state and federal grants finance most of these activities.

#### Reporting the School District's Most Significant Funds - Fund Financial Statements

The School District's fund financial statements provide detailed information about the most significant funds - not the School District as a whole. Some funds are required to be established by state law and by bond covenants. However, the School District establishes many other funds to help it control and manage money for particular purposes (the Food Services and Special Education Center Program Funds are examples) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as bond-funded construction funds used for voter-approved capital projects). The governmental funds of the School District use the following accounting approach:

# **Management's Discussion and Analysis (Continued)**

• Governmental Funds - All of the School District's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end that are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the School District and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net assets and the statement of activities) and governmental funds in a reconciliation.

#### The School District as Trustee - Reporting the School District's Fiduciary Responsibilities

The School District is the trustee, or fiduciary, for its student activity funds. All of the School District's fiduciary activities are reported in a separate statement of fiduciary assets and liabilities. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

#### The School District as a Whole

Recall that the statement of net assets provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net assets as of June 30, 2012 and 2011:

## **Management's Discussion and Analysis (Continued)**

| TABLE I  | G         | overnmen | ntal Activ | vities |
|--|-----------|----------|------------|--------|
|  |           | Jun      | e 30       |        |
|  | 2         | 2012     | 2          | 2011   |
|  |           | (in m    | illions)   |        |
| Assets   |           |          |            |        |
| Current and other assets                         | \$        | 14.9     | \$         | 15.4   |
| Capital assets                                   |           | 51.4     |            | 53.5   |
| Total assets                                     |           | 66.3     |            | 68.9   |
| Liabilities                                      |           |          |            |        |
| Current liabilities                              |           | 7.5      |            | 7.3    |
| Long-term liabilities                            |           | 39.9     |            | 42.3   |
| Total liabilities                                |           | 47.4     |            | 49.6   |
| Net Assets                                       |           |          |            |        |
| Invested in capital assets - Net of related debt |           | 9.2      |            | 9.5    |
| Restricted                                       |           | 1.2      |            | 0.5    |
| Unrestricted                                     |           | 8.4      |            | 9.3    |
| Total net assets                                 | <u>\$</u> | 18.8     | \$         | 19.3   |

The above analysis focuses on the net assets (see Table 1). The change in net assets (see Table 2) of the School District's governmental activities is discussed below. The School District's net assets were \$18.8 million at June 30, 2012. The investment in capital assets, net of related debt, reflects a balance of \$9.2 million. This figure compares the original cost less depreciation of the School District's capital assets to long-term debt used to finance the acquisition of those assets. Most of the debt will be repaid from voter-approved property taxes collected as the debt service comes due. Restricted net assets are reported separately to show legal constraints from debt covenants and enabling legislation that limit the School District's ability to use those net assets for day-to-day operations. The remaining amount of net assets, \$8.4 million, was unrestricted.

The \$8.4 million in unrestricted net assets of governmental activities represents the accumulated results of all past years' operations. The unrestricted net assets balance enables the School District to meet working capital and cash flow requirements as well as to provide for future uncertainties. The operating results of the General Fund will have a significant impact on the change in unrestricted net assets from year to year.

The results of this year's operations for the School District as a whole are reported in the statement of activities (Table 2), which shows the changes in net assets for the fiscal years ended June 30, 2012 and 2011.

# **Management's Discussion and Analysis (Continued)**

| TABLE 2                            | Governmental Activities |       |    | vities      |
|------------------------------------|-------------------------|-------|----|-------------|
|                                    |                         | 2012  |    | 2011        |

| Child care                         |                         | 0.7   |    | 0.6         |
| Food services                      |                         | 1.4   |    | 1.2         |
| Athletics                          |                         | 0.6   |    | 0.6         |
| Interest on long-term debt         |                         | 2.0   |    | 2.0         |
| Depreciaton (unallocated)          |                         | 3.0   |    | 3.0         |
| Total functions/program expenses   |                         | 42.8  |    | 42.5        |
| (Decrease) Increase in Net Assets  |                         | (0.5) |    | 0.1         |
| Net Assets - Beginning of year     |                         | 19.3  |    | 19.2        |
| Net Assets - End of year           | <u>\$</u>               | 18.8  | \$ | 19.3        |

As reported in the statement of activities, the cost of all of our governmental activities this year was \$42.8 million. Certain activities were partially funded from those who paid for goods and services from those programs, \$1.4 million, or by other governments and organizations that subsidized certain programs with grants and contributions, \$10.2 million. We paid for the remaining "public benefit" portion of our governmental activities with \$6.7 million in taxes, \$23.5 million in state foundation allowance, and with our other revenue (i.e., interest and general entitlements) of \$0.5 million. Overall, the cost of activities exceeded the amount of revenue from funding sources by \$0.5 million, resulting in a corresponding decrease in net assets.

#### **Management's Discussion and Analysis (Continued)**

As discussed above, the net cost shows the financial burden that was placed on the state and the School District's taxpayers by each of these functions. Since property taxes for operations and unrestricted state aid constitute the vast majority of the School District's operating revenue sources, the Board of Education and administration must annually evaluate the needs of the School District and balance those needs with available funding resources.

#### **The School District's Funds**

As we noted earlier, the School District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the School District is being held accountable for the resources taxpayers and others provide to it and may provide more insight into the School District's overall financial health.

As of June 30, 2012, the governmental funds reported a combined fund balance of \$10.0 million, which is a decrease of \$0.6 million from last year. The primary reasons for the decrease are as follows:

In the General Fund, our principal operating fund, the fund balance increased by \$0.3 million to \$7.6 million. This amount helps to provide for cash flow needs during the months when state aid isn't received from the state. The change was mainly due to:

- An increase in student enrollment
- A positive budget to actual variance
- One-time Best Practices Incentive funds from the state

General Fund fund balance is available to fund costs related to allowable school operating purposes.

Our Special Revenue Funds remained stable compared to prior years, showing a net decrease of approximately \$17,000 due to the reinvestment of fund balance from the Food Services and Child Care Program Funds into capital improvements.

Combined, the Debt Service Funds showed a fund balance decrease of \$137,000. This decrease is due primarily to a loss in property tax revenue as a result of declining property values. Millage rates are determined annually to ensure that the School District accumulates sufficient resources to pay annual bond issue-related debt service. Debt Service Funds fund balances are reserved since they can only be used to pay debt service obligations.

The 2006 Capital Projects Funds fund balance decreased as the School District continued construction related to the bond issue. The Capital Projects Building and Site Fund fund balance also decreased as the School District continued to invest in technology in accordance with its technology plan, as well as replace buses and other aging equipment in accordance with its replacement schedules.

#### **Management's Discussion and Analysis (Continued)**

#### **General Fund Budgetary Highlights**

By state law, the Warren Woods Board of Education must approve a balanced budget, effective July I of each year. At the same time, the State Legislature's fiscal year does not begin until October I of the same year.

Over the course of the year, the School District must revise its budget as additional information ranging from student enrollment counts to unanticipated changes in costs and state funding becomes available. These revisions, known as budget adjustments, are again required by state law to ensure that expenditures do not exceed the board's authorized budget.

The School District made two budget amendments during the 2011-2012 year, the second of which was approved by the Board of Education on June 25, 2012. A schedule showing the School District's original and final budget amounts compared to actual amounts is provided in the required supplemental information in these financial statements.

Budgeted revenue was increased \$1.09 million resulting from an unanticipated increase in foundation allowance payments due to actual student enrollment greater than original estimates, the addition of Best Practice Incentive Funds, and an increase in federal grant awards.

Budgeted expenditures were also decreased \$1.04 million to account for changes in salaries, purchased professional services, and supplies resulting from the School District's revised operating plan due to the fluctuations in revenue as well as savings from a new collective bargaining agreement with the teachers' union.

The School District's final actual fund balance was \$600,000 more than the final budget. This variance represents a 1.9 percent difference from the amount budgeted.

#### **Capital Assets and Debt Administration**

#### **Capital Assets**

As of June 30, 2012, the School District had \$51.4 million invested in a broad range of capital assets, including land, buildings, vehicles, furniture, and equipment. This amount represents a net decrease (including additions, disposals, and depreciation) of approximately \$2.1 million from last year.

## **Management's Discussion and Analysis (Continued)**

|  | 2012 |  |    | 2011   |  |  |
|--|------|--|----|--|--|--|
| Land Construction in progress Land Improvements Buildings and building improvements Buses and other vehicles | \$   | 4,000<br>3,579<br>4,709,975<br>66,566,056<br>1,245,312 | \$ | 4,000<br>205,835<br>4,207,006<br>66,400,795<br>1,173,239 |  |  |
| Furniture and equipment  |      | 13,016,234   |    | 12,955,502   |  |  |
| Total capital assets   |      | 85,545,156   |    | 84,946,377   |  |  |
| Less accumulated depreciation  |      | 34,160,204   |    | 31,469,732   |  |  |
| Net capital assets   | \$   | 51,384,952   | \$ | 53,476,645   |  |  |

This year's additions of \$1.1 million included cafeteria equipment, technology, building renovations, land renovations, replacement furniture and equipment, and a new bus. No new debt was issued for these additions.

Major capital projects planned for the 2012-2013 fiscal year include technology upgrades, bus/vehicle replacements, and energy improvements. We present more detailed information about our capital assets in the notes to the financial statements.

#### Debt

At the end of this year, the School District had \$42.0 million in bonds outstanding versus \$44.2 million in the previous year – a decrease of 5 percent. Those bonds consisted of the following:

|              | <br>2012         | 2011             |  |
|--------------|------------------|------------------|--|
|              |                  |                  |  |
| gation bonds | \$<br>41,975,000 | \$<br>44,215,000 |  |

The School District's general obligation bond rating continues to be A+. The state limits the amount of general obligation debt that schools can issue to 15 percent of the assessed value of all taxable property within the School District's boundaries. The School District's outstanding unqualified general obligation debt of \$42.0 million is significantly below this statutorily imposed limit of 15 percent (\$82.0 million) of the assessed value of all taxable property within the School District's boundaries.

Other obligations include accrued vacation pay and sick leave. We present more detailed information about our long-term liabilities in the notes to the financial statements.

#### **Management's Discussion and Analysis (Continued)**

#### **Economic Factors and Next Year's Budgets and Rates**

The following factors will affect the School District in the future and were considered in preparing the School District's budget for the 2013 fiscal year budget:

One of the most important factors affecting the budget is our student count. The other is the state foundation revenue determined by multiplying the blended student count by the foundation allowance per pupil. The 2012-2013 budget was adopted in June 2012, based on an estimated number of students who will be enrolled in September 2012. Based on early enrollment projections at the end of the 2011-2012 school year, we anticipate that the fall student count will be consistent with what was used in creating the 2013 budget. In an effort to sustain student enrollment and maximize funding from the state, Warren Woods Public Schools continues to provide opportunities to students throughout Macomb County through Schools of Choice.

The State School Aid Act for 2012-2013 maintains the foundation grant for each student at \$7,749 in Warren Woods Public Schools, with a reduction of \$470 per student from the foundation level during the 2010-2011 fiscal year remaining in place. Due to the state's own overall economic decline, Michigan school districts have been allocated funding at less than inflationary increases over the past nine years. This is due to job losses, reductions in consumer spending, and reductions in property values which, in turn, resulted in lower revenue from income, sales, and property taxes. Consequently, this limits funding available to public schools from its primary revenue source, the State of Michigan. Additionally, the School District has been challenged by increased fixed costs such as retirement and health care.

Prudent fiscal responsibility and cost containment remain critical to the School District's ability to effectively operate in this volatile and difficult economic climate. Over the past five years, the School District has made a series of budget adjustments to protect the financial future of its schools. The School District continues to explore avenues that allow it to reduce costs by restructuring its delivery of services. To balance the budget, an estimated \$2.67 million contribution from fund balance will be used as a strategy to reduce further impact to programs and services.

#### **Contacting the School District's Management**

This financial report is intended to provide the School District's citizens, parents, and investors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional information, we welcome you to contact the business office at 12900 Frazho Road, Warren, MI 48089.

| Total liabilities                      | \$ 404,696        |

#### Notes to Financial Statements June 30, 2012

#### **Note I - Summary of Significant Accounting Policies**

The accounting policies of Warren Woods Public Schools (the "School District") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the School District:

#### **Reporting Entity**

The School District is governed by an elected seven-member Board of Education. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity, and which organizations are legally separate component units of the School District. Based on the application of the criteria, the School District does not contain any component units.

#### **Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenue, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the School District's government-wide activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### <u>Measurement Focus, Basis of Accounting, and Financial Statement</u> Presentation

**Government-wide Financial Statements** - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid, and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

#### Notes to Financial Statements June 30, 2012

#### Note I - Summary of Significant Accounting Policies (Continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

When an expense is incurred for purposes for which both restricted and unrestricted net assets or fund balance are available, the School District's policy is to first apply restricted resources. When an expense is incurred for purposes which amounts in any of the unrestricted fund balance classifications could be used, it is the School District's policy to spend funds in this order: committed, assigned, and unassigned.

Amounts reported as program revenue include (1) charges to customers or applicants for goods, services, or privileges provided and (2) operating grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes and unrestricted state aid.

**Fund Financial Statements** - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers revenue to be available if it is collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, unrestricted state aid, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the School District.

Fiduciary fund statements are also reported using the economic resources measurement focus and the accrual basis of accounting.

The School District reports the following major governmental funds:

**General Fund** - The General Fund is the School District's primary operating fund. It accounts for all financial resources of the School District, except those required to be accounted for in another fund.

**Special Education Center Program Fund** - The Special Education Center Program Fund is used to record special education millage revenue from the intermediate school district, state revenue related to special education, and disbursements associated with special education center programs administered by the School District on behalf of the county.

### Notes to Financial Statements June 30, 2012

#### Note I - Summary of Significant Accounting Policies (Continued)

Additionally, the School District reports the following fund types:

**Special Revenue Funds** - Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to expenditure for specified purposes. The School District's nonmajor Special Revenue Funds include the bookstore activities, food services, and child care program funds. Revenue sources for the bookstore activities and food services funds include sales to customers, and the Food Services Fund receives dedicated grants from state and federal sources. Revenue of the Child Care Program Fund consists primarily of tuition and fees charged to users. Any operating deficit generated by these activities is the responsibility of the General Fund.

**Debt Service Funds** - Debt Service Funds are used to record tax, interest, and other revenue for payment of interest, principal, and other expenditures on long-term debt.

**Capital Projects Fund** - Capital Projects Funds are used to record proceeds from the sale of bonds and other revenue and the disbursement of invoices specifically designated for aquiring new school sites, buildings, equipment, and for remodeling and repairs. The School District's Capital Projects Funds are the 2006 Capital Projects Fund - Series II and the Building and Site Fund.

**Agency Fund (Student Activities)** - The School District maintains an Agency Fund to record the transactions of student groups for school and school-related purposes. The funds are segregated and held in trust for the students.

#### Assets, Liabilities, and Net Assets or Equity

**Cash and Investments** - Cash and investments include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

**Receivables and Payables** - In general, outstanding balances between funds are reported as "due to/from other funds." Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "advances to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectible amounts. The School District considers all receivables to be fully collectible; accordingly, no allowance for uncollectible amounts is recorded. Property taxes are assessed as of December 31 and the related property taxes become a lien on December 1 of the following year. These taxes are billed on July 1 for approximately 50 percent of the taxes and on December 1 for the remainder of the property taxes. Taxes are considered delinquent on March 1 of the following year. At this time, penalties and interest are assessed and the total obligation is added to the county tax rolls.

# Notes to Financial Statements June 30, 2012

#### Note I - Summary of Significant Accounting Policies (Continued)

**Inventories and Prepaid Costs** - Inventories are valued at cost on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased, including United States Department of Agriculture commodities inventory received by the Food Services Fund. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid costs in both government-wide and fund financial statements.

**Restricted Assets** - The unspent bond proceeds and related interest of the 2006 Capital Projects Fund Series II are required to be set aside for construction. In addition, unspent property taxes levied in the Debt Service Funds are required to be set aside for future bond principal and interest payments. These amounts have been classified as restricted assets.

Capital Assets - Capital assets, which include land, buildings, land improvements, equipment, and vehicles, are reported in the applicable governmental financial activities column in the government-wide financial statements. Capital assets are defined by the School District as assets with an initial individual cost of more than \$1,000 and any assets susceptible to theft. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset life are not capitalized. The School District does not have infrastructure-type assets.

Buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

| Buildings and building additions | 20 to 50 years |
|----------------------------------|----------------|
| Land improvements                | 20 years       |
| Buses and other vehicles         | 5 to 10 years  |
| Furniture and other equipment    | 5 to 10 years  |

Compensated Absences (Vacation and Sick Leave) - The liability for compensated absences reported in the government-wide financial statements consists of earned but unused accumulated vacation and sick leave benefits. In the fund financial statements, a liability for these amounts is reported in governmental funds as it comes due for payment. The liability has been calculated using the vesting method, in which leave amounts for both employees who are currently eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

**Long-term Obligations** - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net assets.

#### Notes to Financial Statements June 30, 2012

#### Note I - Summary of Significant Accounting Policies (Continued)

**Fund Balance** - In the fund financial statements, governmental funds report the following components of fund balance:

- Nonspendable Amounts that are not in spendable form or are legally or contractually required to be maintained intact
- Restricted Amounts that are legally restricted by outside parties, constitutional provisions, or enabling legislation for use for a specific purpose
- Committed Amounts that have been formally set aside by the Board of Education for use of specific purposes. Commitments are made and can be rescinded only via resolution of the Board of Education
- Assigned Intent to spend resources on specific purposes expressed by the Board of Education or superintendent, who is authorized by policy approved by the Board of Education to make assignments
- Unassigned The residual classification for the District's general fund and includes all spendable amounts not contained in the other classifications. The unassigned classification is also used for other funds, only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned

The Board of Education has adopted a fund balance policy. The fund balance policy prescribes the fund balance goal as 15 percent of expenditures in the General Fund. This is deemed to be the prudent amount to maintain the School District's ability to meet obligations as they come due throughout the year. If the total fund balance of the General Fund falls below the goal, it shall be recovered at a rate of at least 1 percent each year.

#### Note 2 - Stewardship, Compliance, and Accountability

**Budgetary Information** - Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America and state law for the General Fund and special revenue funds, except that transfers in and transfers out are reported net and capital outlay expenditures are reported in other expenditure categories. All annual appropriations lapse at fiscal year end.

The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level. State law requires the School District to have its budget in place by July I. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits districts to amend their budgets during the year. During the year, the School District amended the General Fund budget to reflect changes in funding from state and federal sources.

#### Notes to Financial Statements June 30, 2012

#### Note 2 - Stewardship, Compliance, and Accountability (Continued)

Encumbrance accounting is employed in governmental funds. Amounts encumbered for purchase orders, contracts, etc. are not tracked during the year. Budget appropriations are considered to be spent once the goods are delivered or the services rendered.

**Excess of Expenditures Over Appropriations in Budgeted Funds** - The School District did not have significant expenditure budget variances.

**Fund Balance** - The School District submitted a plan to the Michigan Department of Education (MDE) in response to a MDE notification that the June 30, 2011 fund balance in the Food Services Fund exceeded the allowable level of three months of operating expenditures. The MDE approved the School District's plan for utilizing these excess funds. The School District plans to reduce fund balance by \$143,253 by June 30, 2013, and demonstrated that it had committed the use of the funds by providing documentation of the work scheduled to be done over the summer of 2012.

#### **Note 3 - Deposits and Investments**

State statutes and the School District's investment policy authorize the School District to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The School District is allowed to invest in U.S. Treasury or agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The School District's deposits are in accordance with statutory authority.

The School District has designated three financial institutions for the deposit of its funds.

The School District's cash and investments are subject to several types of risk, which are described in more detail below:

Custodial Credit Risk of Bank Deposits - Custodial credit risk of bank deposits is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District does not have a deposit policy for custodial credit risk. At year end, the School District's deposit balance of \$3,516,211 included \$299,813 of bank deposits (money market, checking, and savings accounts) that were uninsured and uncollateralized. The School District believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the School District evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

### Notes to Financial Statements June 30, 2012

#### Note 3 - Deposits and Investments (Continued)

**Custodial Credit Risk of Investments** - Custodial credit risk of investments is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District does not have an investment policy for custodial credit risk.

**Interest Rate Risk** - Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The School District's investment policy does not restrict investment maturities, other than commercial paper, which can only be purchased with a 270-day maturity.

**Credit Risk** - State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The School District's investment policy does not further limit its investment choices.

At June 30, 2012, the maturities of investments and the credit quality ratings of debt securities (other than the U.S. government) are as follows:

| Investment                 | . <u> </u> | Fair Value | Maturities        | Rating | Rating Organization |
|----------------------------|------------|------------|-------------------|--------|---------------------|
| Michigan Liquid Asset Fund | \$         | 6,064,195  | n/a 2a7 like pool | AAAm   | S&P                 |

**Concentration of Credit Risk** - The School District places no limit on the amount the School District may invest in any one issuer.

**Foreign Currency Risk** - Foreign currency risk is the risk that an investment denominated in the currency of a foreign country could reduce its U.S. dollar value as a result of changes in foreign currency exchange rates. State law and the School District's policy prohibit investment in foreign currency.

# Notes to Financial Statements June 30, 2012

#### **Note 4 - Capital Assets**

Capital asset activity of the School District was as follows:

| Governmental Activities              |    | Balance<br>July 1, 2011 |    | Additions   | Transfers |           | Disposals and Adjustments |           |    | Balance<br>une 30, 2012 |
|--------------------------------------|----|-------------------------|----|-------------|-----------|-----------|---------------------------|-----------|----|-------------------------|
| Assets not being depreciated:        |    |                         |    |             |           |           |                           |           |    |                         |
| Land                                 | \$ | 4,000                   | \$ | -           | \$        | -         | \$                        | -         | \$ | 4,000                   |

| Accumulated depreciation:            |    |                         |    |             |           |           |                           |           |    |                         |
| Land improvements                    |    | 1,423,552               |    | 174,298     |           | -         |                           | -         |    | 1,597,850               |
| <b>Buildings and improvements</b>    |    | 19,651,158              |    | 1,929,389   |           | -         |                           | -         |    | 21,580,547              |
| Furniture and equipment              |    | 9,589,733               |    | 804,808     |           | -         |                           | (256,804) |    | 10,137,737              |
| Buses and other vehicles             | _  | 805,288                 | _  | 74,421      | _         | -         |                           | (35,639)  | _  | 844,070                 |
| Subtotal                             |    | 31,469,731              | _  | 2,982,916   | _         |           |                           | (292,443) | _  | 34,160,204              |
| Net capital assets being depreciated | _  | 53,266,811              | _  | (2,086,501) | _         | 202,256   | _                         | (5,193)   | _  | 51,377,373              |
| Net capital assets                   | \$ | 53,476,646              | \$ | (2,086,501) | \$        |           | \$                        | (5,193)   | \$ | 51,384,952              |

Depreciation expense was not charged to activities as the School District considers its assets to impact multiple activities and allocation is not practical.

**Construction Commitments** - The School District has active construction projects at year end related to the 2006 Capital Projects - Series II bond issuance. At year end, the School District's commitments with contractors were approximately \$60,000.

#### Note 5 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances is as follows:

|                                       |         |         | Fu | nd Due To | 1  |            |    |         |
|---------------------------------------|---------|---------|----|-----------|----|------------|----|---------|
|                                       | Special |         |    |           |    |            |    |         |
|                                       |         |         |    |           |    |            |    |         |

| Total                                 | \$      | 95,509  | \$ | 63,476    | \$ | 187,630    | \$ | 346,615 |

# Notes to Financial Statements June 30, 2012

#### Note 5 - Interfund Receivables, Payables, and Transfers (Continued)

Interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

#### **Interfund Transfers**

|                             |    | General  |    | Program | Go | vernmental |    |           |
|-----------------------------|----|----------|----|---------|----|------------|----|-----------|
| Fund Advanced To            |    | Fund     | _  | Fund    |    | Funds      |    | Total     |
| General Fund                | \$ | <u>-</u> | \$ | 639,665 | \$ | 100,000    | \$ | 739,665   |
| Nonmajor governmental funds | _  | 459,535  | _  |         |    | 50,000     | _  | 509,535   |
| Total                       | \$ | 459,535  | \$ | 639,665 | \$ | 150,000    | \$ | 1,249,200 |

Transfers from the General Fund to the Debt Service Funds related to the allocation of property tax revenue to designated funds. Transfers to the General Fund consist of reimbursement by the Special Education Center Program, Child Care Program, and Food Services Funds for certain indirect expenses.

#### **Note 6 - Deferred Revenue**

Governmental funds report deferred revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of deferred revenue are as follows:

|   | Governmental Funds |             |    |          |    |         |  |  |  |  |  |
|---|--------------------|-------------|----|----------|----|---------|--|--|--|--|--|
|   |                    | Unavailable |    | Unearned |    | Total   |  |  |  |  |  |

| eligibility requirements  | _                  | -           | _  | 383,693  |    | 383,693 |  |  |  |  |  |
| Total   | \$                 | 30,197      | \$ | 383,693  | \$ | 413,890 |  |  |  |  |  |

## Notes to Financial Statements June 30, 2012

#### Note 7 - Long-term Debt

The School District issues bonds, notes, and other contractual commitments to provide for the acquisition and construction of major capital facilities and the acquisition of certain equipment. General obligation bonds are direct obligations and pledge the full faith and credit of the School District. Other long-term obligations include compensated absences.

Long-term debt activity can be summarized as follows:

|                               | Ве | ginning Balance | _  | Additions |    | Reductions |    | nding Balance | _  | Amount Due<br>Within<br>One Year |
|-------------------------------|----|-----------------|----|-----------|----|------------|----|---------------|----|----------------------------------|

#### Notes to Financial Statements June 30, 2012

#### **Note 7 - Long-term Debt (Continued)**

#### **Governmental Activities**

General obligation bonds consist of the following at June 30, 2012:

\$17,775,000 2005 general obligation unlimited tax and refunding bonds due in annual installments of \$575,000 to \$835,000 through May 1, 2025; interest at 3.50 percent to 5.00 percent

9,260,000

\$34,365,000 2006 general obligation unlimited tax and refunding bonds due in annual installments of \$1,475,000 to \$2,600,000 through May 1, 2026; interest at 4.25 percent to 5.00 percent

28,125,000

\$5,500,000 2007 general obligation unlimited tax and refunding bonds due in annual installments of \$300,000 to \$515,000 through May 1, 2023; interest at 4.00 percent

4,590,000

Total

\$ 41,975,000

#### **Note 8 - Risk Management**

The School District is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The School District has purchased commercial insurance for medical claims and participates in the SET-SEG risk pool for claims relating to workers' compensation, general liability, and property/casualty claims. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The SET-SEG shared risk pool program in which the School District participates operates as a common risk-sharing management program for school districts in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

#### **Note 9 - Defined Contribution Pension Plan**

**Plan Description** - The School District participates in the Michigan Public School Employees' Retirement System (MPSERS), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the School District. The system provides retirement, survivor, and disability benefits to plan members and their beneficiaries. The system also provides postemployment healthcare benefits to retirees and beneficiaries who elect to receive those benefits.

#### Notes to Financial Statements June 30, 2012

#### Note 9 - Defined Contribution Pension Plan (Continued)

The Michigan Public School Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplemental information for the pension and postemployment healthcare plans. That report is available on the web at http://www.michigan.gov/orsschools, or by writing to the Office of Retirement System at 7150 Harris Drive, P.O. Box 30171, Lansing, MI 48909.

**Pension Benefits** - Employer contributions to the pension system result from the implementing effects of the School Finance Reform Act. Under these procedures, each school district is required to contribute the full actuarial funding contribution amount to fund pension benefits. The employer contribution rate for basic plan members was 12.16 percent of covered payroll for the period from July I, 2011 through September 30, 2011 and 15.96 percent for the period from October I, 2011 through June 30, 2012. The employer contribution rate for pension plus plan members was 10.66 from July I, 2011 through September 30, 2011 and 14.73 percent for the period from October I, 2011 through June 30, 2012. Basic plan members make no contributions, but Member Investment Plan members contribute at rates ranging from 3 percent to 4.3 percent of gross wages, or up to 6.4 percent of gross wages for members entering the MIP Plus plan on or after July I, 2008. The School District's required contributions to the plan for the years ended June 30, 2012, 2011, and 2010 were approximately \$4,365,000, \$3,733,000, and \$3,261,000, respectively.

Postemployment Benefits - Under the MPSERS Act, all retirees participating in the MPSERS pension plan have the option of continuing health, dental, and vision coverage through MPSERS. Retirees electing the coverage contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent of the monthly premium amount for the health, dental, and vision coverage at the time of receiving the benefits. For members who first work after June 30, 2008, a graded premium health insurance subsidy has been put in place. The MPSERS board of trustees annually sets the employer contribution rate to fund the benefits on a pay-as-you-go basis. Participating employers are required to contribute at that rate. Required contributions for postemployment healthcare benefits are included as part of the School District's total contribution to the MPSERS plan discussed above. The employer contribution rate was 8.5 percent of covered payroll for the period from July 1, 2011 through June 30, 2012. The School District's required contributions to the plan for retiree healthcare benefits for the years ended June 30, 2012, 2011, and 2010 were approximately \$614,000, \$429,000, and \$324,000, respectively.

# Notes to Financial Statements June 30, 2012

#### **Note 10 - Upcoming Accounting Pronouncements**

Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, was issued by the GASB in June 2011 and will be effective for the School District's 2012-2013 fiscal year. The statement incorporates deferred outflows of resources and deferred inflows of resources, as defined by GASB Concepts Statement No. 4, into the definitions of the required components of the residual measure of net position, formerly net assets. This statement also provides a new statement of net position format to report all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. Once implemented, this statement will impact the format and reporting of the balance sheet at the government-wide level and also at the fund level.

In June 2012, the GASB issued Statement No. 68, Accounting and Financial Reporting for Pensions. Statement No. 68 requires governments providing defined benefit pensions to recognize their unfunded pension benefit obligation as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. This net pension liability that will be recorded on the government-wide, proprietary and discretely presented component units statements will be computed differently than the current unfunded actuarial accrued liability, using specific parameters set forth by the GASB. The Statement also enhances accountability and transparency through revised note disclosures and required supplementary information (RSI). The School District is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this Statement are effective for financial statements for the year ending June 30, 2015.

#### **Note II - Subsequent Events**

In July 2012, the School District sold \$2,000,000 of Qualified School Construction Bonds that will be used to acquire and construct certain energy conservation improvements.
